There is even a video with sound of the piano player at the "*Lyon Part Dieu*" station in the middle of town.

That station is reached from Paris Gare du Lyon by 14 car nonstop train in TWO hours.

The older, smaller station of "*Lyon Perrache*" is the next stop on the south edge of town next to the Saone River.

The town was founded by the Roman Empire since it is at the confluence of the Rhone and Saone Rivers.

There are many Michelin star restaurants in town.
